### How will you use the Twitter API or Twitter data?

All fields are required unless marked optional

**In your words**

In English, please describe how you plan to use Twitter data and/or APIs. For students and teachers, please include the name of the school, the name of the instructor and the course number (if available). The more detailed the response, the easier it is to review and approve.

We are working in edutech firm, we are using this for the content creation, we are going to use this for demonstration purpose, in this course we are using spark, Spark Streaming is the basic concept that we are trying to include.
